Command of the Appellate Court to Attorney General.

REPUBLICAN OFFICER AT FRANKFORT.

The Court of Appeals yesterday decided the Breckinridge-Pratt contest case over the office of Attorney General of Kentucky, in favor of Judge Pratt, Republican nominee, and directing the retirement of Breckinridge.

Justice Guffy delivered the opinion, which is in substance: "The judgment or decision of the State Board of Contest is void, and conferred no right upon the appellee Breckinridge, and could not affect the appellee Pratt's right and title to the office in contest, and the Court below erred in rendering the judgment appealed from."

Justices Durelle, Burnam and O'Rear concur and Justices Paynter, Hobson and White dissent.

The mandate of the Court will be issued within thirty days, and Judge Pratt will take up the duties of the office about January 10th.

Judge Breckinridge, the retiring official, announces that he will be a candidate for Governor, to succeed Beckham, two years hence.

SINCE Alaska became the property of the United States the value of the product of her fisheries has been over \$70,000,000, of her furs \$84,000,000, and the yield of her gold mines approximately \$40,000,000. Alaska became a part of this country by purchase from Russia in 1867, \$7,200,000 being the price. Then the anti-Imperialists and anti-Expansionists hopped up on their hind legs and chattered like monkeys, just as they are chattering now over Porto Rico and the Philippines. They pronounced the purchase an extravagant folly and predicted all sorts of dire results. But with an outlay of only \$7,200,000 and an income of \$144,000,000, it doesn't appear to have been a very bad investment after all. Mark ye, the same will in a few years be true of Porto Rico and the Philippines, only in larger measures.

The most signal surrender Great Britain has made since 1783, when she recognized the Independence of the United States, was made when her plenipotentiary, Lord PACEMAKER, in the name of his King, attached the seal of the lion and the unicorn to the recently negotiated Hay-Pauncefote Treaty. Thereafter Great Britain surrendered her right to participate in the construction of an isthmian canal.

Technically the treaty supersedes that of April 10th, 1850, known as the Clayton-Bulwer agreement. In effect it abrogates it because it dissolves the partnership between Great Britain and the United States in which all maritime powers were invited to join as guarantors of the neutrality of waterway. The new treaty leaves the way clear for an American canal, built by Americans, owned, controlled and guarded by them in any manner they see fit.

The only condition is that ships of all Nations shall have equal rights in it during peaceful times. When the United States is at war with a power she has the right to close it against the ships of her enemy if she can.

THE Health Commissioner of Bayonne, N. J., is attempting to have enacted a law that will compel women within his jurisdiction to wear abbreviated skirts. Such a regulation ought to meet with little opposition in Mayville, where the ladies are obliged to sweep the muddy pikes with \$40 dresses, and where all the pretty girls have such pretty feet.

OF course, if UREY WOODSON and CHARLIE BRONSTON and "Jedge" CANTRELL were charged with the assassination of a Republican official in Indiana, they would be perfectly willing that they should be turned over to a Republican Governor, to be tried before a bitterly partisan Republican Judge, by a unanimously Republican Jury selected for the purpose by a Republican Sheriff—especially if the lawyers arrayed against them were backed by a \$100,000 blood-money fund to secure their conviction. Indeed, they would not only be willing to "go up against" such a stridently partisan affair, but they would sit up all night so as to catch the early morning train for Indianapolis. Wouldn't you, gentlemen?

KENTUCKY'S RESOURCES.

Movement For a Display of Them at the St. Louis Exposition.

The Board of Trade of this city has started a plan whereby it is hoped great results may come to Mayville and the state at large.

It is proposed to have Senator William H. Cox father a bill—and he has it now way—and push its passage at the forthcoming session of the Legislature, the expressions of which shall pledge a certain sum of money with which to make a creditable exhibit during the Louisiana Purchase Exposition in St. Louis in 1903.

Heretofore there have been appropriations for such purposes, but so meager in sum as to preclude the possibility of advertising the state's resources and properly presenting to the world the inexhaustible fields of minerals, the vast area of territory, the almost limitless supply of timber and the geographical situation which Kentucky possesses.

It is proposed by those having the bill in hand to so frame it as to make the good results to the state its first consideration.

The matter of management will not be given to those seeking fat salaries with no desire or ability to do the work which will be necessary. Men of the best business qualifications; men above party biasness; men wise in planning and sound in execution will be selected and upon only a comfortable annuity while the preliminary arrangements are being carried out.

It is only eighteen months until the day of opening the Exposition, when from every standpoint will eclipse any ever held.

The Legislature sits in January, and any move towards passing such a bill must be done at this session.

The newspapers of the state are its pulse, and if they will they can boom this measure and accomplish more than all other forces combined. As the finger of the skilled physician gently lies upon the patient's pulse in order to learn of his condition, so the pen of the deft writer is urged to take the pulse of the public and after testing it give expression, that this move may be pushed on to complete success.

GET DOWN TO FACTS.

Read What Mayville Citizens Say.

Get down to the facts of the matter. Don't take a stranger's word. It is easier to prove the truthfulness of statements made by citizens of Mayville than indorsement coming from some far away place. Read the following—
Mrs. O. D. Burgoyne of Hall street says:

"The use of Doan's Kidney Pills proved of remarkable value to me. For a long time I suffered from kidney trouble. Not only were there severe pains in my back, but also other evidences of a disturbed condition of the kidneys. Doan's Kidney Pills came to our knowledge and Mr. Burgoyne wrote to J. Jas. Wood & Son's Druggery, corner of West Second and Market streets, and got a box. The treatment was so effective that it has given me much pleasure to recommend this remedy to a number of my friends."

ANOTHER ARREST MADE.

Judge John Hall Commands That the Union Camps in Hopkins County Disband at Once.

Earlington, Ky., Nov. 21.—Another Negro has been arrested at Uniontown, charged with being one of the party that attacked the Providence mines Sunday morning. This makes three arrests, and since the death of Morton Bush, one of the non-unionists, who was shot in his house during the assault, the charges against the prisoners has been changed from shooting with intent to kill to that of murder. The proof is clear that these men took part in the shooting. The wounded prisoner, Geo. Couch, was still alive Wednesday afternoon.

County Judge John Hall, of Hopkins county, after holding a session of inquiry for a day and a half, heard testimony from a number of witnesses as to the character and conduct of the Union camps, and issued a determined order commanding these camps to disband at once and forever in Hopkins county.

HE REFUSED TO SERVE.

B. F. Loy Was Elected Sheriff and George A. Edwards, Defeated, Now Claims the Office.

Greenburg, Ky., Nov. 21.—George A. Edwards, who was defeated for sheriff, Wednesday, made a contest against B. F. Loy, who was elected. There has been no sheriff in this county for over 20 years, and neither party nominated a candidate for the office, but Mr. Edwards made the race on an independent ticket with nobody against him on either of the other tickets. He offered the name of Loy on his ballots and Edwards was thereby defeated. Loy did not know that his name was being used and would not quit, but Edwards claims that he was entitled to the certificate of election because Loy did not want the office and did not want the certificate of election which was issued to him.

Albany, Ky., Nov. 21.—Sam Groce, Sam Shipley, John and Henry Miller, charged with killing James Johnson in the western part of this county, had their names bound over before Judge Parrish, and Groce, Shipley and John Miller were held over until the February term of circuit court. COLON CAPTURED.

The Government Forces Surprised and the City Taken After a Short Engagement.

THE LIBERAL GEN. PATINO KILLED.

A Detachment of United States Marines on Board the Gunboat Machias Were Landed.

Col. Barrera, Commander of the Victoriano Liberal Troops, Promised to Guard the City With His Force.

Colon, Colombia, Nov. 21.—On receipt of the news that Gen. Alban, the military commander of the isthmus, had started to attack the liberals at Chorrera, near Panama, the latter detached 150 men, under Gen. Patino, to attack Colon. This force embarked on board a train bound from Panama to Colon Wednesday evening at Las Cascadas Station, previously cutting off telegraphic communication across the isthmus. On arriving at the outskirts of Colon where the government units maintained a small guard, the liberals left the train and the initial skirmish which began soon afterward Patino was killed.

The command of the liberals then devolved on Col. Frederico Barrera, and they continued their march on Colon, arriving a few minutes after the train, thus surprising the whole town. The government troops, numbering 150 men, were outnumbered by the liberals. Fighting immediately began at the quarter (barracks), which was soon taken. Thereafter the fighting moved to the main court, was killed and Senor Muskus, the district representative of the department of the interior, was mortally wounded.

No Fighting at Panama.

Fighting subsequently occurred at the town hall, which was also taken by the liberals. Among the prisoners were the prefect, guardia and the commander of the police, Senor Paredes managed to reach the gunboat Gen. Pinzon, which sailed Tuesday night for the isthmus. The whole affair was over in less than three hours.

Communication with Panama was restored Wednesday. It was revealed that no fighting had occurred there, that everything was quiet and that the city was in the hands of the government. The issue of the war depends on the result of the fighting which is doubtless now occurring at Chorrera, news of which is anxiously awaited here. The isthmian unknown, probably because of the result of the fighting which is doubtless now occurring at Chorrera, news of which is anxiously awaited here. The isthmian unknown, probably because of the result of the fighting which is doubtless now occurring at Chorrera, news of which is anxiously awaited here.

Property Guarded.

The United States gunboat Machias added a detachment of marines here Wednesday morning. They are now protecting the communication and other property of the road.

At a conference between Commander McCrea, of the Machias, United States Consul Mors, Col. Schaler, superintendent of the Panama railroad, and Col. Barrera, the commander of the liberals, the latter was informed that the Machias had been landed from the Machias. Barrera promised to guard the city with his troops.

Trains will be crossing the isthmus as usual Wednesday. There has been no obstruction of the Panama railroad. The news of the capture of Colon, which reached Panama, where communication with that city was restored Wednesday morning, was a great surprise to the inhabitants of that city.

GEN. ALBAN'S EXPEDITION.

Nothing Has Been Heard in Panama Concerning Its Outcome—Government Troops Fortifying.

Colon, Colombia, Nov. 21.—According to the news received here from Panama, nothing has yet been heard in that city concerning the outcome of Gen. Alban's expedition against the liberal forces at Chorrera. It is said that information of the recent happenings at Colon have been sent to him.

At the meantime the government troops at Panama, numbering about 300 men, are busily engaged in the construction of earthworks and barricades at the railroad bridge going into the city in anticipation of an early liberal attack.

THE MURPHY, JEWELER!

BIG LOSS OF LIFE.

Probably Thirty Persons Perished as a Result of a Fire in the Bullion Tunnel.

SEVENTEEN BODIES RECOVERED.

About 170 Men Succeeded in Reaching Safety by Another Exit From the Burning Mine.

The Shaft Was Filled With Smoke and It Was Six Hours Before a Rescuing Party Could Effect an Entrance.

Telluride, Col., Nov. 21.—By a fire in the Bullion tunnel, belonging to the Smuggler Union Mining Co., probably 30 lives were lost Wednesday. Seventeen bodies have been recovered. The shaft, which is known to have been accidental, started Wednesday morning in the buildings at the mouth of the tunnel. At this point is located the upper terminal of the railway to the company's new mill at Pandora and it was in the bunk house attached that the fire first started. From this it spread to the terminal station, which, with its ore bins and machinery, is a mass of ruins.

The shaft of 200 men had entered the mine and reached their stations when the fire broke out. The tunnel acted as a flue and a great volume of smoke poured in and filled the slopes.

About 170 of the men succeeded in reaching safety by another exit, but the fire rapidly burned itself out, but the mine was so filled with smoke that it was six hours before rescuing parties could penetrate the slopes where the lost fortunate were. At 1 o'clock the first body was recovered and at 6:17 dead had been removed from the mine. The engineer, Hugh J. O'Neill, was found alive, but is not expected to recover. No list of dead is yet obtainable.

MISS ELLEN M. STONE'S RANSOM.

Mr. Dickinson Has Sent an Ultimatum to the Brigands Who Are Holding Her a Prisoner.

Sofia, Nov. 21.—The foreign office avers that, acting upon the suggestion of Mr. Dickinson, it caused the village of Gratchovo to be surrounded and searched a fortnight ago, but the brigands were not there.

The latest intelligence received here sets forth that the brigands are holding out for a high figure of ransom and it is asserted that they are able to keep their captives as long as this may be necessary.

Mr. Dickinson, according to the Yezerna Post, whose editor was a member of the former Macedonian committee, has sent an ultimatum to the brigands giving them six days to receive the sum of \$50,000 for the ransom for Miss Stone. If this amount is not accepted within the time mentioned Mr. Dickinson's offer will be withdrawn.

A TERRIBLE CRASH.

Two Passenger Trains, Running at Full Speed, Collided on the Santa Fe Road.

SEVEN TRAINMEN WERE KILLED.

The Three Engines Were Crushed and Blown to Pieces by an Explosion That Followed.

The Collision Is Said to Have Been Due to a Disregard of Orders On the Part of One of the Crews.

Los Angeles, Cal., Nov. 21.—In a passenger wreck on the Santa Fe railroad one mile west of Franconia, Ariz., a switch train 20 miles west of Needles, Cal., Wednesday morning, seven trainmen were killed and three passengers and 14 trainmen were injured. Two limited trains one east, and one west bound, crashed together while running at full speed. The east bound train was drawn by two engines, while the other train had but one locomotive. The three engines were crushed and blown to pieces by an explosion which followed the collision. Both the trains were made up of heavy vestibuled cars, and several of the cars burned up. The dining cars, one on each train, one Pullman and two composite cars were destroyed.

The collision is said to have been due to a disregarding of orders on the part of the crew of the west bound limited. From all accounts, however, it is gathered that the east bound train was ordered to take the siding at Franconia, and await the passing of the west bound flyer, which was running two hours late, and trying to make up time.

Collided Without Warning.

The east bound train failed to reach the siding, and, as the west bound train did not wait for it, the two trains collided without warning, and with a awful crash. The boiler of the west bound train is said to have exploded immediately after the crash, scattering to death those of the engine crews who had not been killed outright. The bodies of Case and Armitage, firemen of the east bound train, and Sam Brown, waiter on the west bound train, are missing, and it is believed they were burned to death.

A severe avalanche of confusion followed the crash. The massive engines piled in an indestructible mass of broken and twisted steel, while the scalding steam hung in a dense, suffocating cloud over the debris, amidst which the agonizing cries of the injured and dying were heard. The heavy Pullman and composite cars jammed the dining and baggage cars upon the pile, carrying death to the engine crews and setting the cars afire.

BOWMAN.

Well, here we are again. Mrs. Lula Bowman is visiting her parents at Lancaster. P. E. Million of Export has bought a portion of the Fountain land near here. Daisy, little daughter of W. G. Martin, has come recovered from an attack of scarlet fever. Robert Whalen of Limerick passed through here Thursday, moving to Pendleton county. Chicken-pox is prevalent here at present. Edna Doyle has been one of the victims the past week. Mrs. Charles Florence of Bath county has been seriously ill with pneumonia fever at the home of her father, Mr. Robert Hurst, near here. Aunt Martha Plummer, aged 81 years, of Poplar Plains, accompanied by her granddaughter, Miss Minnie Sanders, spent a week with relatives here not long since. Mr. John Bowman has leased nearly all the land in this vicinity for an Eastern company, and this week Mr. D. J. Lykins of Paducah was around taking the acknowledgment of those that had signed the leases, preparatory to sending them to headquarters.

The river is rising at this point. The Tacoma resumed operations today.

The Lizzie Bay was up this morning for Pomeroy.

The J. B. Finley with 36 empties will pass up tonight for Pittsburgh.

The towboat Fred Hartweg struck a snag and went down in the Mississippi.

The C. J. Reynolds has completed her snag-pulling in this end of the river, and has gone below.

The Sea Lion and J. M. Grubbs with tons of timber will pass down tomorrow for Cincinnati and Louisville.

The boat owners of Pittsburgh have requested the Government to have driven at the trap at Newkirk a row of piling to prevent steamboats from running out on the bar at that place. The accident to the Enterprise, which is hard around there, has given the impression that the trap will be a more difficult place for steamboats to pass than Logstown.

The following boats and tows comprising the Kanawha coal fleet will pass down today:

E. R. Andrews, 15 barges, 3 flats.
John Mackey, 8 barges.
Annie L., 10 flats.
Otto Marmel, 14 barges, 1 flat.
Val F. Collins, 9 barges, 3 flats.
Florence Marinet, 12 barges, 2 flats.
D. T. Lane, 14 barges, 1 flat.
Monte Clare, 12 barges, 2 flats.

The shipment amounted to 1,500,000 bushels.

E. J. I have associated myself with M. C. Russell Co., the Wholesale Grocers, and will be much pleased to have my friends call on me, feeling that I can make it to their interest.

Martin Coyne, one of the best fellows on earth when sober, came down from the state of Lewis and got a few drinks of fighting whiskey, and then he became one of the worst fellows that ever walked down the avenue. Gets Eighteen Years in the Pen For Alleged Rape on a Child.

Charles Ramsey, Toughmaster General of the Local Sundryabout Fraternity, who has been in Court as many times as there are hairs in his head, was yesterday convicted of rape on a fourteen-year-old girl member of the Fraternity.

All parties to the transaction are Past Masters in Trenchard, with Ramsey as the principal culprit.

The case had been on trial in the Circuit Court for the greater part of two days.

His lawyers are satisfied—and he'll have to be.

BRAIN-FOOD NONSENSE.

Another ridiculous food fad has been traced by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not only nourish a portion of the body, but it will sustain every other part. Yet, however good your food may be, its nutrient is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aid digestion, stimulate the liver to healthy action, purify the blood, and makes you feel robust and vigorous. You can get 30c. for Green's reliable remedies at J. J. Van Wagon & Son's, 101 Green Street, Cincinnati.
